**DETAILED ACTION** 

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-14 and 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being

indefinite for failing to particularly point out and distinctly claim the subject matter which applicant

regards as the invention.

Regarding claim 8, line 3 applicant should clarify and clearly set forth what is intended by "a

median line." Applicant should specify what is intended by "channeling." The steps of "channeling"

the magnetic flux and "forming" the gaps seem inconsistent. Applicant should clarify. In lines 6-7,

applicant states that the "step of channeling is performed so that said magnetic flux is channeled

through said at least one part." Applicant has not claimed an additional step or function. Applicant

should clarify. Claims 9-10 inherit the defects of the parent claim.

Regarding claim 11, line 2 applicant should clarify and clearly set forth what is intended by

"a median line." Applicant should specify what is intended by "channeling." The steps of

"channeling" the magnetic flux and "forming" the gaps seem inconsistent. Applicant should clarify.

In lines 4-5, applicant states that the "gaps perpendicular to said median line and forming said means

Page 3

Application/Control Number: 09/508,692

Art Unit: 2832

for channeling." The gaps themselves do not seem to provide the channeling means. Applicant should clarify. Claims 12-14 and 17-19 inherit the defects of the parent claim.

## Claim Rejections - 35 USC § 103

- The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 8-14 and 17-19, as best able to be understood in view of the rejections under 35 USC 112, second paragraph, are rejected under 35 U.S.C. 103(a) as being unpatentable over Castera et al. [US 4,341,998].

Castera et al. disclose a process for increasing the operating frequency of a magnetic circuit comprising:

- a magnetic circuit [figure 4];
- grooves/gaps being formed [figure 4] within a substrate of the magnetic circuit, each of the gaps having a certain pitch and width;
  - means [6a, 6b] for "channeling" a magnetic flux through at least part of the circuit; and
  - insulating layers being formed within the circuit [figure 4].

Castera et al. disclose the instant claimed invention except for the specific shape of the "channeling" means.

Page 4

Application/Control Number: 09/508,692

Art Unit: 2832

It would have been obvious to one having ordinary skill in the art at the time the invention was

made that the desired magnetic circuit would determine the specific shape of the channeling means.

Response to Arguments

5. Applicant's arguments with respect to claims 8-14 and 17-19 have been considered but are

moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office

action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is

reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS

from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the

mailing date of this final action and the advisory action is not mailed until after the end of the

THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the

date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be

calculated from the mailing date of the advisory action. In no event, however, will the statutory

period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Examiner Lincoln Donovan whose telephone number is (703) 308-3111.

Art Unit: 2832

The fax number for this Group is (703)308-7724.

Any inquiry of a general nature or relating to the status of this application of proceeding should be directed to the Group receptionist whose telephone number is (703)308-0956.
